

INDUSTRIAL INSTALLATION
& MAINTENANCE PTY LTD

ENVIRONMENT POLICY

Industrial Installation & Maintenance is committed to undertaking its business in a manner that recognises the importance of environmental protection and sustainability. We are committed to minimising environmental impacts in all our operations by:

1. Developing and maintaining methods for monitoring and evaluating our Environmental Management System performance for continual improvement.
2. Recognize that protection of the environment is a company-wide priority and we will practice waste minimization to prevent pollution in both product design and production operations to the extent practicable. Employees at all levels within the company will work together to seek and implement waste minimisation measures.
3. Taking all practicable steps to prevent pollution and other adverse effects on the environment.
4. Educating and training our people to continually improve awareness, skills and knowledge of environmental issues and practices.
5. Identifying, reporting, investigating and resolving all environmental incidents and non-conformances.
6. Comply with all applicable legal and other requirements to which the organisation subscribes which relate to its environmental aspects. We will participate where requested with government entities for the development of technically sound and responsible laws and regulations.

▲This policy statement confirms the Industrial Installation & Maintenance intent to create and implement sound environmental principles. Supporting Corporate Safety Leadership Standards and Procedures detail the actions and accountabilities required to implement this policy. This policy will be reviewed as a minimum every three years to ensure that it continues to meet legislative and organisational requirements.
